## Online Aerospace Supplier Information System (OASIS)

Hello Giuseppe Leoni

### Welcome to International Aerospace Quality Group

Online Aerospace Supplier Information System (IAQG-OASIS). If you are working in the aerospace industry, involved in aerospace supplier selection and surveillance, this is a reliable source for aerospace supplier certification and registration data.

This online resource contains a list of suppliers who are certified / registered to IAQG rules to be in compliance with the aerospace quality management system requirements (9100 series). This resource also contains all bodies involved in the process (i.e. National Accreditation Bodies, Certification Bodies and Authenticated Aerospace Experienced Auditors).

Personal information can be seen or modified using the menu on top.

#### 9100:2016 Series Aerospace Quality Management System Transition

The International Aerospace Quality Group (IAQG) has agreed to align transition of the revised 9100:2016 series standards with the International Accreditation Forum's (IAF) Resolution 2013-15, which requires transition to the ISO9001:2015 quality management system (QMS) standard no later than 15 September 2018.
