Online Aerospace Supplier Information System (OASIS)

Hello Giuseppe Leoni

Welcome to International Aerospace Quality Group

Online Aerospace Supplier Information System (IAQG-OASIS). If you are in the aerospace industry, involved in aerospace supply chain, you are a reliable source for aerospace supplier certification.

This online resource contains a list of suppliers who are in compliance with the aerospace requirements (9100 series). This resource also contains information on accreditation bodies (i.e. National Accreditation Bodies, Certification Bodies, and Experienced Auditors).

Personal information can be seen or modified using the menu on top.

9100:2016 Series Aerospace Quality Management System Transition

The International Aerospace Quality Group (IAQG) has agreed to align transition of the revised 9100:2016 series standards with the International Accreditation Forum's (IAF) Resolution 2013-15, which requires transition to the ISO9001:2015 quality management system (QMS) standard no later than 15 September 2018.

Important Modifications

- OASIS Feedback Guidance
- IAQG OPMT ICOP Resolutions Log
- 2016 Release of AS/EN/JISQ 9100 and Transition Timetable
- AS/EN/JISQ 9100:2016 IAQG Sanctioned Aerospace Auditor Training Availability Notification
